Great, we haven't noticed any resident trash so it's working.

On his parking issue, I thought that block had parking along Flower St.  
Maybe I'm wrong though.

Thanks,  
Aaron

Aaron-FYI

They have been letting the tenants use their dumpster instead of putting stuff in the trash bins on the sidewalk.

Good afternoon ,

I have seen an improvement happening I much appreciate it and yes mid block , and I have been keeping the word out to my neighbors above and below to not be using the street side garbage and if they need the key to large waste bin then I'm more then glad to spare the key/make copies .

I just recently experienced a employee of mine getting her car towed due to no parking up in front . I paid for the cost of tow, I'm not asking for any money to replace but if we can progress with parking along side, bike racks , bins and such I would really appreciate it .

Thank you .

Good afternoon:

I have inquired with the Figueroa BID about placing another garbage can mid-block. They indicated that they would place one--but warned that a garbage can that was previously there was consistently filled by residents with their household garbage. They couldn't keep up with servicing it before it overflowed onto the street. Please keep an eye out and let me know if the behavior starts again.

I placed an order for the bike racks--they are back logged by a couple of weeks due to a staffing shortage. I will keep you posted but it may take up to two months for them to be placed.
